

## Dennis and Marcia Flom

The Floms serve as directors of Crisis Care Responders (CCR), a ministry of Christ for the City International. CCR recognizes that there are people throughout our communities who are facing crisis at home or at work. Crime, suicides, economic crisis, and loss of independence are just a number of those critical incidents that can cause trauma to those affected. CCR exists to develop well-prepared teams made up of fellow Christians, mental health workers, Chaplains, first-responders, and caregivers to offer hope and demonstrate compassionate action to those who are in the midst of great pain and suffering.

Crisis Care Responders has developed standards & built a curriculum that will prepare the team to respond to crisis situations in the Omaha area and eventually throughout the country.

Current City: Omaha, NE

In 19XX, Dennis and Marcia left their "comfortable life" in Cannon Falls, Minnesota to take "time out" to get closer to God and seek his will for their lives. During an eye-opening and life-changing experience in Honduras, living among the poorest of the poor in a primitive cement building with no running water and sporadic electricity, the Floms felt the call of God on their lives. They sold their home and their business and entered the world of full-time missions.
